EDUCATION EXPERIENCES

Undergraduate **Shanghai Jiao Tong University Senior** *Shanghai, China*
Computer Science and Technology (CS)
@ School of Electronic, Information and Electrical Engineering (SEIEE)
Expected 2019–2023
Mathematics @ School of Mathematical Sciences
Transferred 2018–2019
GPA | 3.71/4.3 CET6 | 545 (Oral: B+)
A/A+ Courses | Mathematical Fundamental in Computer Sciences, Compiler Principles, Computer Architecture Labs

SKILLS

Programming ✓ Familiar with interface programming like FLTK in C/C++ [GraphGenDecomp](#), Win-Form/WPF/XAML in VB.NET/C# [ClassBookController](#) [DialogCreator](#), Typesetting of \LaTeX [AutoBeamer](#). *2015–2021*
✓ Acknowledge OpenCV, pandas, pytorch and networking [Networking](#) in Python. *2019–2021*
✓ Acknowledge webpage making in HTML/CSS/JavaScript [\TeX Sparkle \(Blog\)](#), and use JavaScript framework Vue.js [PGFPlotsEdt](#). *2020–2021*
✓ Get started with Java [OS-Projects](#) and Rust [CompilerPrinciple](#). *2020*

Visualization ✓ Familiar with Video Editing in Premiere, Special Effects in After Effects, 3D Modeling in Cinema 4D [Cinema 4D](#). *2012–2020*
✓ Acknowledge Unity to make 3D interactive programs. PowerPoint Lecturer. *2019–2020*

Open Source ✓ Acknowledge cmd/PowerShell/bash script languages, version control tool Git, and continuous integration tool GitHub Actions.
Member of SJTUG. Chinese \TeX Society CT \TeX -org committer [learnlatex.github.io](#). Give lectures about \LaTeX [sjtulib-latex-talk](#).
Participate in VS Code Chinese Group Sharing. Finish 2021 Microsoft Open-Source Study Group Projects [mnist-calculator](#) [custom-tensor-op](#) [qlib-CNN](#). *2021*

HONORS

National Undergraduate IOT Design Contest · Harmony Special Award (Top 10) *2022*
Contribution | Develop a HarmonyOS App based on the technology of distributed database, to service the hybrid class with social distancing. Build a cloud platform to interconnect clients, [web](#), and a hardware.

Mathematical Contest in Modeling (MCM) · Meritorious Winner *2021*
Contribution | Redefine the distance of DBSCAN in sklearn library, in order to perform a better prediction in the range of wildfire. Perform geographical calculations in Mathematica.

SJTU Scholarship · Class C *2018–2019, 2020–2021*

COMMUNITIES

SJTU Linux User Group · SJTUT \TeX Maintainer *2021*
Related Work | Maintainer of \LaTeX Beamer Template [SJTUBeamer](#) ★ 309.

SJTU Art Center · Leader of Tech Division *2019–2020*
Related Work | Video Producer. Create multi-streaming software [ACLIVEConsole](#) ★ 7 to manage NGINX visually, support art processing of bilibili danmaku, and fluent PGM animation. The software has serviced multiple events, including the commercial ones.
