EDUCATION EXPERIENCES

Undergraduate   **Shanghai Jiao Tong University** Junior   *Shanghai, China*
Computer Science and Technology (CS)
@ School of Electronic, Information and Electrical Engineering (SEIEE)

Expected 2019–2023

Mathematics @ School of Mathematical Sciences   *Transferred 2018–2019*
GPA | 3.63/4.3   *CET6* | 560
A/A+ Courses | Mathematical Foundamental in Computer Sciences, Compiler Principles, Computer Architechture Labs

SKILLS

Programming

- ✔ Familiar with interface programming like FLTK in C/C++ GraphGenDecomp , WinForm/ WPF/XAML in VB.NET/C#   ClassBookController   DialogCreator , Typesetting of LaTeX AutoBeamer .   *2015–2021*
- ⊘ Acknowledge OpenCV, pandas, pytorch and networking Networking in Python.   *2019–2021*
- ⊘ Acknowledge webpage making in HTML/CSS/JavaScript LaTeXSparkle (Blog), and use JavaScript framework in Vue.js PGFPlotsEdt .   *2020–2021*
- ⊘ Get started with Java OS-Projects and Rust CompilerPrinciple .   *2020*

Visualization

- ✔ Familiar with Video Editing in Premiere, Special Effects in After Effects, 3D Modeling in Cinema 4D .   *2012–2020*
- ⊘ Acknowledge Unity to make 3D interactive programs. PowerPoint Lecturer.   *2019–2020*

Open Source

- ⊘ Acknowledge `cmd`/PowerShell/`bash` script languages, version control tool Git, and continous integration tool GitHub Actions.
- ▶ Member of SJTUG. Chinese TeX Society CTEX-org committer learnlatex.github.io.
- ▶ Participate in VS Code Chinese Group Sharing. Finish 2021 Microsoft Open-Source Study Group Projects mnist-calculator   custom-tensor-op qlib-CNN .   *2021*

HONORS

Mathematical Contest in Modeling (MCM) Meritorious Winner   *2021*
Contribution | Redefine the distance of DBSCAN in sklearn library, in order to perform a better prediction in the range of wildfire. Perform geographical calculations in Mathematica.

National Undergraduate IOT Design Contest Second Prize   *2020*
Contribution | Make a webpage to visualize canteen data and connect Nigara to HUAWEI Cloud database to make prediction based on the historical data. SJTUCanteenDataWidget

SJTU Scholarship Class C   *2018–2019, 2020–2021*

COMMUNITIES

SJTU Linux User Group · SJTUTeX Maintainer   *2021*
Related Work | Maintainer of LaTeX Beamer Template SJTUBeamer ★ 192.

SJTU Art Center · Leader of Tech Division   *2019–2020*
Related Work | Video Producer. Create multi-streaming software ACLiveConsole ★ 7 to manage Nginx visually, support art processing of bilibli danmaku, and multiview fluent PGM. The software has serviced multiple events, including the commercial ones.
